LIMITED**

(A Govt., of Tamil Nadu Enterprise)
TEL Post, Vellore - 632 059.

Manual

UNDER THE RIGHT TO INFORMATION ACT, 2005
(CENTRAL ACT 22 OF 2005)

INDEX

Chapter No.	Details of information	Page Nos.
01.	Introduction, fee structures to get information	1-3
02.	The particulars of organization functions and duties, various Production Units, Products, Major Consumers and I S O Certificates	4-10
03.	Organization Chart	11
04.	Brief particulars of TEL Annual Turnover, Board of Directors of TEL	12-14
05.	Public Information Officer and Appellate Authority	15
06.	Directory of Officers and Employees	16
07.	Monthly remuneration of Officers and Employees	17-32

CHARPTE-1

The Govt. of India have enacted the Right to Information Act, 2005 (No.22 of 2005) to provide for setting out the practical regime of right to information for citizens to secure access to information under the control of public authorities, in order to promote transparency and accountability in the working of every public authority.

In exercise of the powers conferred by Section 27 of the Right to Information Act, 2005, the Governor of Tamil Nadu made Rules on the fees payable for obtaining information under Sub-section (I) of Sec.6 (G.O.Ms.No.989, Public (Estt. & Legal) Dept., dated 07.10.2005).

Under Sec.4, of the Right to Information Act, 2005, every Public Authority is required to disclose information voluntarily, keeping in mind, activities, nature of work and the information that needs to be divulged to the common people and suggested to prepare a Manual containing the particulars of the Organisation, functions, duties etc. for the information of common public.

FEES STRUCTURES TO GET INFORMATION UNDER THE RIGHT TO INFORMATION ACT, 2005:

(a) . Every application for obtaining information under sub-section (I) of Section 6 of the Act shall be accompanied by an application fee of Rupees Ten by cash or by demand draft or banker's cheque payable to TEL, Vellore.

(b) . For providing information under sub-section (I) of Section 7 of the Act, following fee shall be charged by way of cash against proper receipt or demand draft or banker's cheque payable to "Tamil Nadu Industrial Explosives Limited" as specified -

- (i) rupees two each page (in A-4 or A-3 size paper) created or copied.
- (ii) actual charge or cost price of a copy of long size paper and
- (iii) for inspection of records, no fee for the first hour, and a fee of rupees five for each fifteen minutes (or fraction thereof) thereafter,

(c) For providing the information under sub-section (5) of Section 7, the fee shall be charged by way of cash against proper receipt or be demand draft or banker's payable to "Tamil Nadu Industrial Explosives Limited, Vellore" at the following rates -

(i) for information provided in diskette or floppy, Rupees fifty per diskette or floppy; and

(ii) for information provided in printed form at the price fixed for publication

WORKING HOURS OF OFFICE :

09.00 A.M. - 05.30 P.M.

CHAPTER-2

THE PARTICULARS OF ORGANISATION FUNCTIONS AND DUTIES

Tamil Nadu Industrial Explosives Limited is a Government of Tamil Nadu Enterprise, incorporated under the Companies Act 1956 and was incorporated on 09.02.1983 for the manufacture of commercial Explosives and its accessories.

The Industrial Explosives project is located in the Panamadangi Reserve Forest, Vandaranthangal / Dharapadavedu Villages, Katpadi taluk, Vellore District.

The manufacturing facilities are housed in 700 Acres of Forest Land which is 7 kms North of Katpadi Railway Station on the Vellore-Chittoor Highway.

The Registered Office is located at No.735, Anna Salai (1st Floor), L.L.A. Buildings, Chennai - 600 002.

We have six manufacturing units for production of various types of explosives and its accessories. Viz: (i) Detonators, (ii) Detonating Fuse, (iii) Emulsion Explosives, (iv) Slurry Explosives, (v) MMAN Based Explosives and (vi) 2EHN.

DETONATOR AND DETONATING FUSE UNIT

The Detonator and Detonating Fuse Project was implemented in Collaboration with M/s. Josef Meissners, West Germany, M/s. UNIS, Yugoslavia and M/s. Lathaussee, Belgium. The commercial production was started in January 1989, the licensed capacity in respect of Detonators is 45 million nos. and Detonating Fuse is 12 million mtrs.

(i) DETONATORS :

We have the manufacturing facility for production of Aluminium/Copper shells, Electric/non-electric Detonators to be used in quarrying well sinking, metal/mineral mines, coal mines, tunneling etc.

(ii) DETONATING FUSE :

Detonating Fuses are made of PETN as inner explosive material subsequently covered with two layers of superior quality of yarn and further coated with high strength PVC material for safe handling and water resistance. High quality process technology and precision machineries ensures higher reliability and Superior performance under all conditions.

These Detonating Fuses are meant for blasting operations of granite quarries, open cast mines, underground metal mines, underwater blasting etc.

(iii) EMULSION EXPLOSIVES:

- (a) Emulsion Explosives Project was implemented with indigenous technical know-how and the commercial production was started in January 2004.

Emulsion Explosives are the new generation of explosives characterized with high VOD and optimum strength. These explosives are more suitable for deep hole blasting in large open case mining operations, quarrying as excellent booster and column explosives ensuring excellent fragmentation in both soft and hard rocks, They have excellent water resistance with improved storage and thermal stability.

(b) BULK EMULSION EXPLOSIVES :

Our Bulk Emulsion Explosives are the new generation of explosives characterized by manufacturing and delivering of quality products as per customers specifications right at the blast site from Non explosive components.

Bulk emulsion matrix is produced in a modern plant using state of art technology. WE offer complete range of bulk products that can be customized for specific mining conditions for greater reliability and consistent performance. In order to vary the energy level depending on the strata conditions, additional amounts of prilled ammonium nitrate and other ingredients can be mixed on the bulk delivery system itself.

(iv) SLURRY EXPLOSIVES:

Slurry Explosives Plant was implemented with indigenous know-how and started the commercial production in December 1991.

Slurry Explosives are manufactured with strict in-process quality control measures. The water based consistent get explosives provides maximum safety, stability and thermal resistance. These explosives are safe in handling, economical and superior performance for water resistance.

(v) MMAN BASED EXPLOSIVES:

With the ban of NG based explosives, we have started manufacturing MMAN (Methylo Ammonium Nitrate) based explosive with the capacity of 9000 MT. Moreover, MMAN solution has a very good potential for export.

(vi) 2-EHN :

This is a chemical used as additive to improve the performance of Diesel. Now with the Introduction of EU III norms, this became essentially required in refineries. We are going to commission this plant with slight modification in the existing idle NG Plant. The capacity of the 2 EHN Plant proposed to be installed is 15000 MT.

PRODUCTS

Various Products being manufactured by us and its end use are given below:

A) EMULSION EXPLOSIVES:

For blasting in metalliferous mines, tunneling, well sinking, quarrying, excavation, road construction, oil exploration, under water blasting etc.

B) DETONATORS:

a)	Ordinary and special detonators	For above ground use. To be used along with the safety fuse for quarrying and some restricted mining activities.
b)	Aluminium Electric Detonators	For blasting above the ground mining activities and non-mining blasting operations.
c)	Aluminium delay Detonators (short delay and long delay)	Above ground mining activities.
d)	Copper electric detonators	For underground coal mining
e)	Copper delay detonators	For underground coal mining.

C) DETONATING FUSE:

For the above ground mining

D) SLURRY EXPLOSIVES:

To use as prime/booster/column charge for Large Dia, Blasting operations, oil exploration/ under waster blasting, for general purpose blasting in construction work, tunneling, well sinking.

E) 2EHN:

This is used as additive in Diesel.

MAJOR CONSUMERS

- ▶ Coal India and its subsidiaries (CIL)
- ▶ Singareni Collieries Co. Limited (SCCL)
- ▶ Neyveli Lignite Corporation Limited (NLC)
- ▶ Director General of Border Roads (DGBR)
- ▶ Electricity Boards (Hydro Electric Projects)
- ▶ Irrigation Projects
- ▶ Mineral Development Corporations.
- ▶ Railway Tunneling
- ▶ Oil and Natural Gas Commission (ONGC)
- ▶ State Public Works Departments.
- ▶ Cement Factories.
- ▶ Water Source Development and Quarrying.

I.S.O.CERTIFICATES

We have been conferred with the following
certificate for standards:

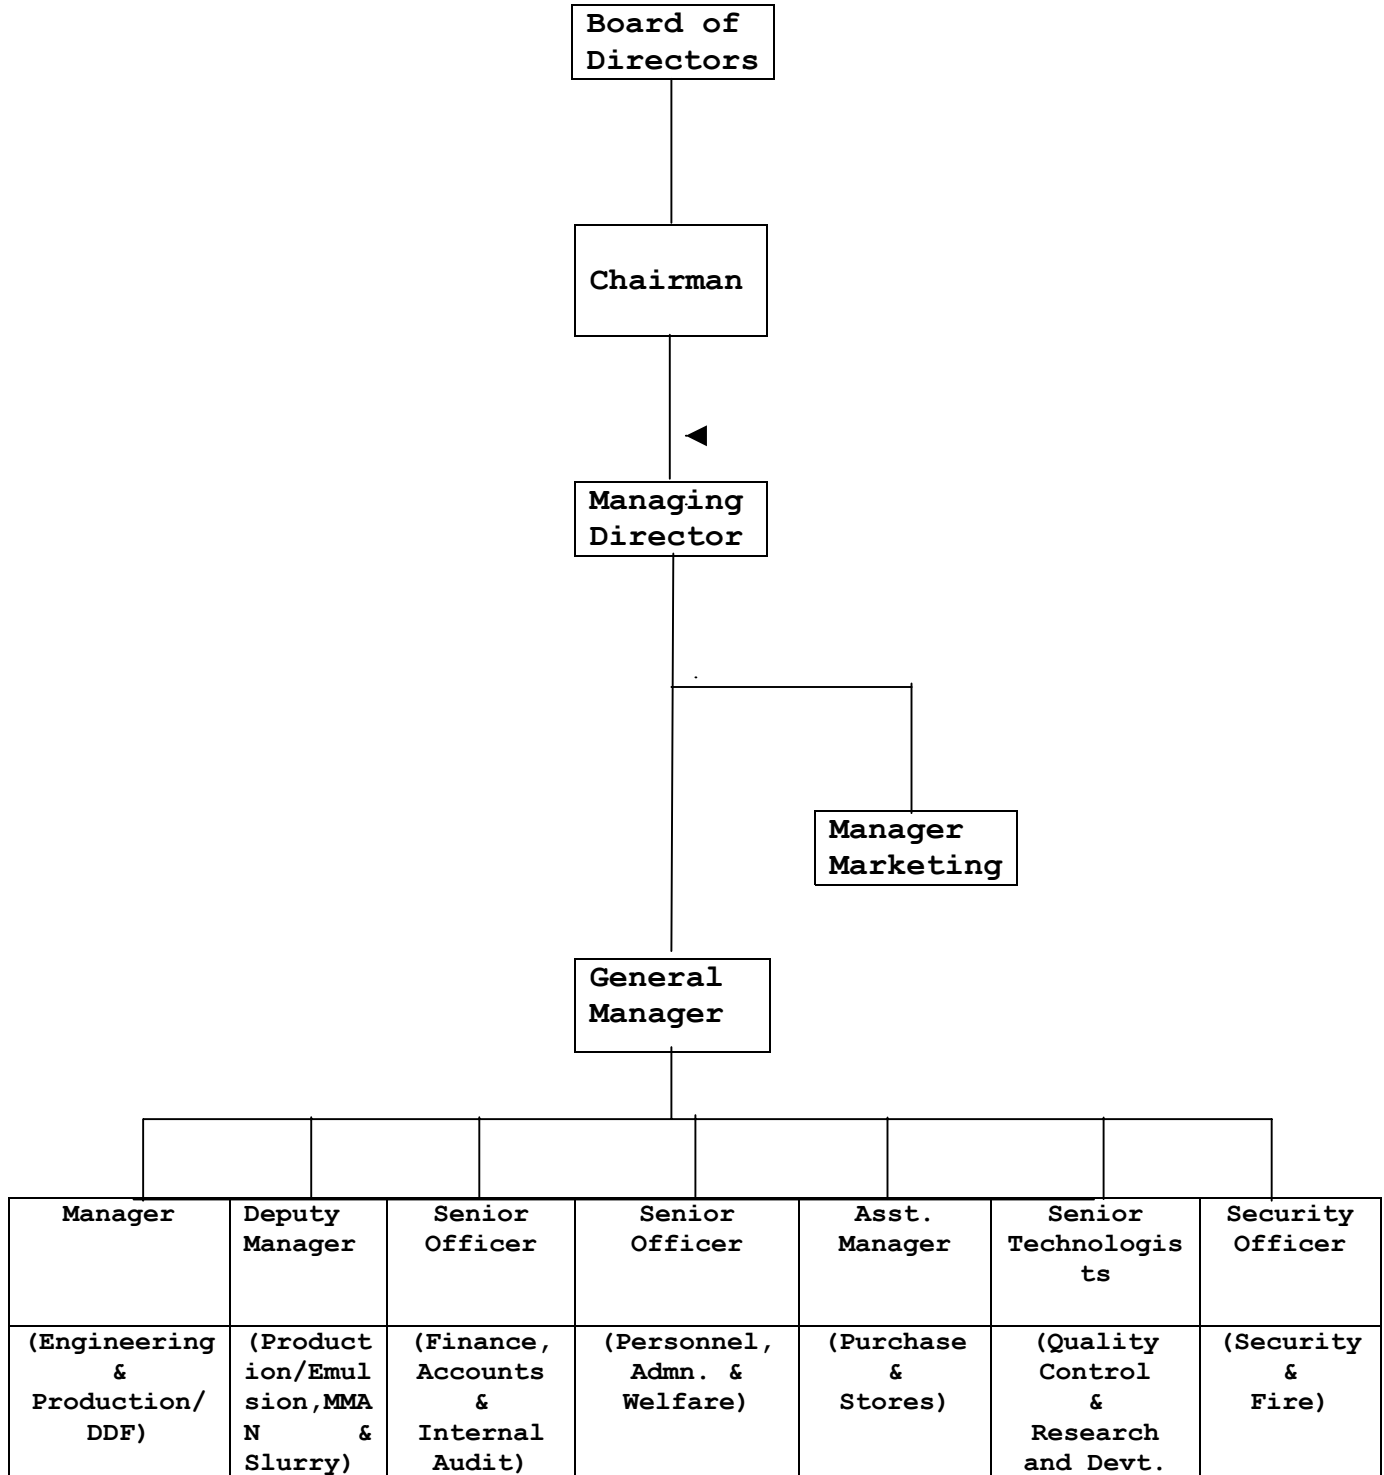

ISO 9001 -2000

ISO 14001-2004

OHSAS 18001:1999
